## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 1, 3-10, and 12-14 are allowed.
2. The following is an examiner's statement of reasons for allowance: This invention deals with a multi-layer insulated wire having two or more extrusion insulating layers provided on a conductor, wherein at least one layer of the insulating layers is composed of polyethersulfone resin that initially has a loss modulus that is two or more times a storage modulus, at 300°C and 1 rad/s in a nitrogen atmosphere (claims 1 & 6). The above stated claim limitations, in combination with other claim limitations, is not taught or suggested by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Response to Arguments***

3. Applicant's arguments filed February 10, 2006 have been fully considered and they are persuasive. Specifically, the applicant's argument submitted in the Declaration filed under 37 CFR 1.132 comparing the closest prior art to the claimed invention and the showing of unexpected results is persuasive and therefore the claims.
